

Popsicle

© Gilad Aharoni (Israel) 2005

Low intermediate
A 15cm (6inch) square makes a 10cm (4inch) tall model.

1. Start with a square, flavor side up. Mark the center of the edge.

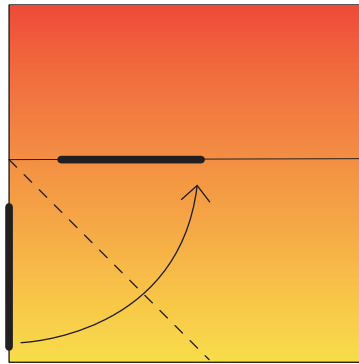

2. Again, only mark the midpoint to the previous crease.

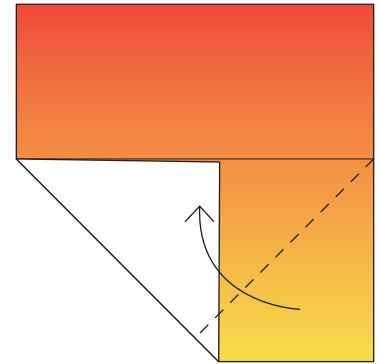

3. Last time.

4. Fold and unfold, bringing top corner to the crease from the last step.

5. Fold corner to last crease.

6. Repeat on opposite corner.

7. Turn over.

8. Valley fold in thirds.

Popsicle (Page 2)

9. Pleat

10. Two overlapping squash-folds

11. Turn over.

12. And all that is left is to shape the popsicle to taste (lemon, pineapple, etc.) with some mountain folds.

13. Finished popsicle.

14. REALLY finished popsicle!
